Benelux Business Survey

BenCham: How have Benelux companies active in China performed in 2017? Are Benelux companies more impacted by new rules and regulations in China and have Benelux companies experienced any business opportunities due to governmental policies such as the Belt and Road Initiative (BRI) and "Made in China 2025"? What are the expectations for the new year and does China still remain an important market for Benelux businesses?

We look forward to ask you these questions and receive your opinion in the **Sino Benelux Business Survey 2018**. This year's business survey has been organised by the Benelux Chamber of Commerce across China, supported by the official diplomatic representations of Belgium, the Netherlands and Luxembourg in China, in partnership with MS Advisory in China.

So do you happen to work for a Belgian, Dutch or Luxembourgish company doing business in China? - Please share your opinion: Click on the button below to participate in the online questionnaire, which should take approximately 15 minutes to complete. Information you provide will be treated confidentially. No reference to individual companies or persons will be made in the report. Information you provide will not be shared with third parties.

The online questionnaire will open until 2nd week of April this year, after which we will start analysis of the results and prepare a comprehensive report to be shared within the Benelux community. During end of May/beginning of June, we will present the results across the Benelux business communities in China in Beijing, Pearl River Delta (PRD) and Shanghai. We will keep you informed!
